Ballia, Uttar Pradesh, India

OBJECTIVE

Experienced Frontend Developer with over 2.8 years of practical expertise in developing and deploying applications and solutions using diverse technologies and programming languages. I am enthusiastic about securing a position that allows me to leverage my skills and capabilities to contribute significantly to the organization's growth while advancing my professional career.

EXPERIENCE

Senior Software Engineer (Frontend Developer)

QSS Technosoft Inc.

April 2022 - Present

Noida

1. LoopTech Village

Our mission is to enhance the lives of seniors worldwide by fostering meaningful connections through captivating virtual classes, events, and content. Our aim is to create unparalleled emotional bonds and alleviate the pain of social isolation.

• Role:

- As part of this project, I am individually spearheading the UI development using cutting-edge technologies such as Next.js, React.js, SCSS, and TypeScript.
- Independently developing the project from the ground up, ensuring seamless integration of essential platforms such as Auth0, vercel, Hashura, Cloudflare, Zoom, Mailgun, Twilio etc.
- I have authored numerous server-endpoint APIs in our project to facilitate seamless interaction with our essential integrated platforms.

2. GPS

Aimed at efficiently managing employees, clients, contractors, and the hiring process, as well as handling sensitive HR details for the company.

• Role:

- As part of my role, I actively participated in daily standup meetings and collaborated closely with business analysts (project owners) to comprehend business logic and client requirements.
- I focused on optimizing code and improving response times by reevaluating the component structure.
- Additionally, I successfully developed a new system that captures comprehensive commit histories from various projects managed by clients. This implementation involved leveraging tools like GitHub, GitLab, and employing Promises, async, and await functionality effectively.

System Engineer (Frontend Developer)

Infosys

Nov 2020 - Mar 2022

Chennai

3. AT&T Services

Our goal is to fortify our network, enabling a wide range of advancements, from smarter homes and cities to high-quality remote healthcare, augmented and virtual reality experiences.

• Role:

- As part of my role, I actively engaged with business analysts (project owners) to thoroughly grasp the business logic and client requirements, facilitating seamless project development and successful outcomes.

- Developed or Modified the UI using React JS, Typescript etc tech. to attract more customers.
- Supported and Wrote unit test cases.

STRENGTHS

Hard-working

Persuasive

UX

Proficient in learning new technologies

SKILLS

• Technical Skills :

React JS

Next JS

Javascript

Typescript

HTML/CSS

Data Structure

MySQL

SCSS

Rest API

Graphql

• FrameWorks/Libraries/Developer Tools :

React Developer Tool

Bootstraps

Material UI

Prismic CMS

Vercel

Redux

Git

Postman

Auth0

zoom

etc.

ACHIEVEMENTS

• Problem Solving Skills :

Solved 400+ DSA problem on GFG.
